PANEL DYNAMICS

Panel Moderation

The panel discussion will follow the format previously agreed upon between the moderators and panelists.

At the start of the panel:

- The master of ceremonies invites the moderator and the panelists to take the stage.
- Next, the master of ceremonies gives the floor to the moderator.

Introduction of the Participants

To optimize time, we ask that the reading of the mini-bio be brief and objective, with 1 to 2 short sentences (education, area of expertise, and main experiences). Full information about the moderators and panelists is available on the event website.

- The process will continue as agreed upon in the previous meeting.
- At the end of the presentations, 10 minutes should be reserved for questions from the audience.

All participants (moderators and panelists) must be present in the speakers' room at **least 20 minutes before the panel.**

The event operations team will escort the group to the stage entrance. After the presentations, moderators and panelists should proceed to their reserved seats in the front row.

INTERACTION WITH THE AUDIENCE

Tablet-Based Dynamics:

During the panel, **the moderator will receive a tablet with questions from the audience**, sent via QR Code to the **Slido system**, displayed on the screen.

- Questions intended for the panelists will be received on a tablet, allowing the moderator to conduct the discussion.
- The reception team will brief the mediator on how the Slido system works before the moderator takes the stage.

It is the Moderator's responsibility to:

- **Encourage the audience to ask questions** via the QR code, promoting interaction.
- **Select the questions received** by Slido to be passed on to the panelists.
- **Present them orally** at the appropriate time.

Official Photo: At the end of the presentations, we ask that all panel participants position themselves in a semicircle on stage for the official panel photo.
